Notes to editors:

- As the leading business association in the sector, the Association for Consultancy and Engineering (ACE) represents the interests of around 430 professional consultancy and engineering companies large and small in the UK. Many of our member companies have gained international recognition and acclaim and employ over 60,000 in the UK and 250,000 staff worldwide;
- ACE members are at the heart of planning, conceptualisation, delivering, maintaining and upgrading our buildings, structures and infrastructure. They provide specialist services to a diverse range of sectors including transportation (road, rail, airport and ports), housing and commercial property, water, sanitation and energy and environment;
- The ACE membership acts as the bridge between engineering consultants who make an estimated contribution of £15bn to the nation's economy and the wider construction market contributing a further £90bn.
