# Our vision...

For a political, economic and commercial environment that enables the **consultancy and engineering** businesses to thrive and make the **world a better place.**

A photograph of two women in business attire engaged in a conversation. The woman on the left is shown in profile, facing right, while the woman on the right is facing her. Both are smiling. The image is overlaid with a semi-transparent blue filter. The text "Our mission..." is written in white in the upper left corner.

# Our mission...

We promote the interests of companies delivering professional services in the natural and built environment. We do this by **bringing members together** to share knowledge, experience and insight. This shapes our tangible **business support**, as well as our proactive **engagement with policymakers** across the UK.

# Our purpose...

Our members provide solutions to some of our **biggest challenges** – How do we design a **Net Zero** future? How do we **create opportunity** for communities across the devolved nations and **level-up** regions? How can we **kickstart growth and jobs** on a path to economic recovery? How can we deliver more **social value**?

# How do we do this?

## We support members by:

- Promoting a transparent and **sustainable commercial environment**
- Working together to build **resilient businesses**
- Increasing access to **new opportunities**

## We are the voice of consultancy by:

- Nurturing a long-term policy approach by Government and championing the importance of the natural and built environment
- Demonstrating how projects can be **better financed, delivered and managed** on the path to a Net Zero future
- Unlocking social value by **improving how clients come to market**

## We shape the future of consultancy by:

- Showcasing best-practice and **positive social impact**
- Developing **future capability** across the sector
- Evolving the culture of the industry to attract, support and retain the **next generation**

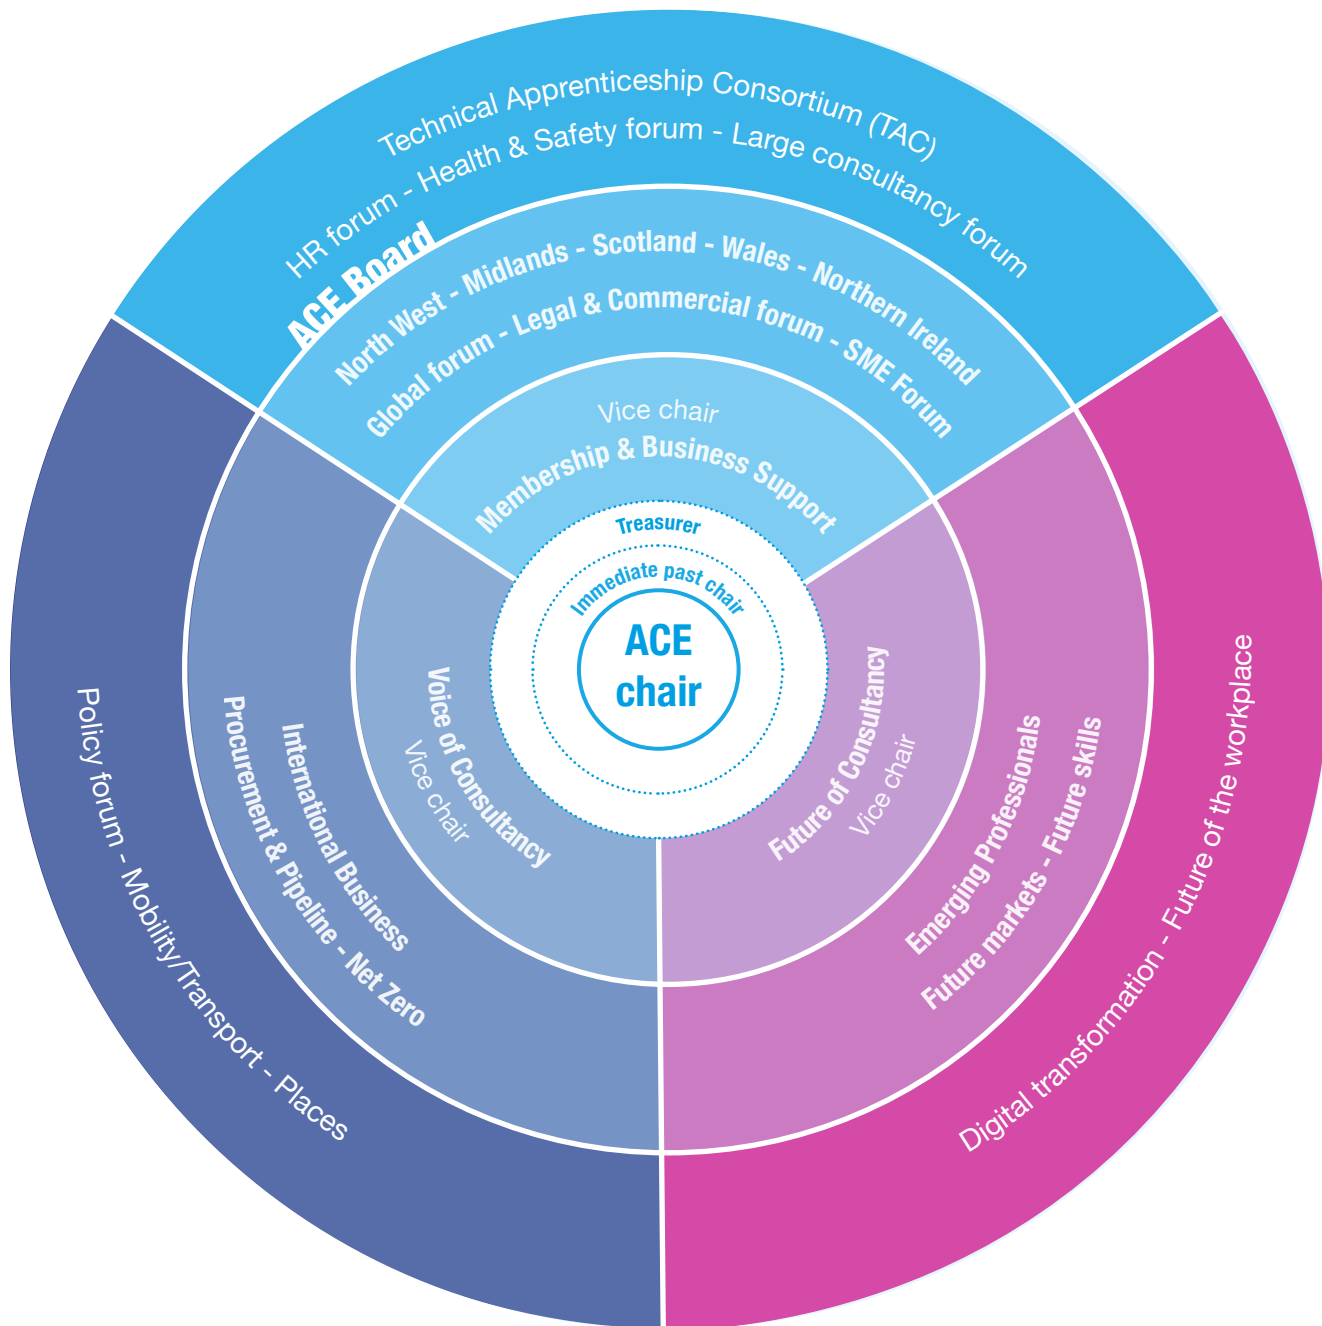

**What are our  
work themes?**

- **Business support** – Helpline, Find a Consultant, professional indemnity insurance.
- **Business development** – Technology and innovation, delivering new markets.
- **HR advice and policies** – Apprenticeship standards and advice via TAC, Construction Talent Retention Scheme, supporting industry's emerging professionals, improving diversity and inclusion.
- **Procurement and pipeline** – Regulations, client attitudes and behaviour, Project Speed, Construction Playbook and delivery models.
- **Environment and Net Zero** – Natural capital, nature-based infrastructure solutions, ongoing Net Zero research, synergies with EIC activity.
- **Places and mobility** – Placemaking, levelling up, regeneration, planning reform, local, social and commercial infrastructure, post-pandemic urban centres, transport networks, future of rail and major transport projects, new technology such as electric vehicles, driverless cars, and hydrogen trains.
