

## Nina Cameron Graham Award

Women Shaping Engineering Consultancy

### Assessment Criteria

Each question will be scored out of a maximum of 10 points. Entrants are encouraged to provide comprehensive and detailed responses.

Entries should demonstrate:

- Professional excellence, with evidence of high performance and impact within engineering consultancy
- Leadership and influence within an organisation, project, network or the wider sector
- Advocacy for inclusion, representation or opportunity, through actions, initiatives or visible leadership
- Role modelling, including inspiring and supporting others within the profession

**Judges will assess the nominee's impact on both professional excellence and inclusion, recognising influence at organisational and sector level.**
